

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1999 (Department of Health 2000). The number of people in the public sector who are employed in health care has increased by 1.2 million, from 1.3 million in 1980 to 2.5 million in 1999 (Department of Health 2000).

There is a growing emphasis on the importance of the public sector in the provision of health care services. The public sector is seen as the main provider of health care services, and it is expected that the public sector will continue to play a major role in the provision of health care services in the future. The public sector is also seen as the main provider of health care services for the most vulnerable members of the population, such as the elderly, the disabled, and the poor.

The public sector is also seen as the main provider of health care services for the most vulnerable members of the population, such as the elderly, the disabled, and the poor. The public sector is also seen as the main provider of health care services for the most vulnerable members of the population, such as the elderly, the disabled, and the poor. The public sector is also seen as the main provider of health care services for the most vulnerable members of the population, such as the elderly, the disabled, and the poor.
